## MUCH DAMAGE BY SEVERE STORM

### Many Washouts on the Railroads in Ohio.

### CROPS ALSO SUFFER HEAVILY

#### Cloudburst at Newark Caused Sudden Rise in a Pond and a Former Councilman Is Drowned Trying to Save His Property—One Man Killed by Lightning During Storm at Detroit.

Columbus, O., Aug. 16.—As a result of a severe electrical storm, which raged in Ohio, telephone and telegraph wires are down and many washouts have occurred on the railroads.

Crops suffered heavily. A cloudburst at Newark caused Log pond to rise seven feet in an hour, and Frank Meneally, a former councilman, was drowned trying to save his property. The Simon slough bridge over a creek near Newark was washed away. A freight train was passing over it at the time. The engine got safely across, but several cars fell into the stream. Fireman Patrick Dreem was probably fatally hurt.

At Findley an electrical storm caused loss estimated at \$75,000. A 35,000-gallon oil tank of the Ohio Oil company caught fire from lightning and is still burning.

### SEVERE STORM AT DETROIT

#### One Man Struck by Lightning and Killed.

Detroit, Aug. 16.—In a storm which broke over this city one man was struck by lightning and killed, another shocked, and a young man and woman who were canoeing on the river when the squall struck are believed to have been drowned.

N. T. Bristow of Cleveland was in Belle Isle park and was struck by lightning and killed. Charles Arnold of this city, who was with Bristow, was badly shocked. A man and woman in a canoe were caught in mid-river by the storm. Two men with a row boat tried to tow the canoe to shore, but the line snapped and the canoe was blown out into the stream and after the storm could not be located.

### FOR ELIMINATION TRIALS

#### Nineteen Sander Yachts in Marblehead Harbor.

Marblehead, Mass., Aug. 16.—Nineteen American sander yachts rest on the waters of this harbor with their hulls rubbed smooth and their sails delicately trimmed for the elimination trials, which will be held this week to decide which three are best fitted to race the German team in the third international contest.

With the American boats also float the three German challengers for the President Taft and Governor Draper cups, while on the verandas of the spacious club house of the Western Yacht club mingle the German and American Corinthian sailors, all eager for three weeks of their favorite sport.

The elimination trials for the American boats will begin today and will probably continue throughout the week. The international races will begin on Aug. 30.

### FIGHT DUEL ON THE STREET

#### Texan and His Sister-in-Law Use Revolvers.

Grange, Tex., Aug. 16.—E. H. Rice and his sister-in-law, Mrs. A. Smith, engaged in a street duel with revolvers here as the result of domestic troubles. The former is at his home with three bullets in his body and the latter is in jail. Mrs. Rice and her sister, Mrs. Smith, were at the Rice home when Mrs. Rice announced her intention of leaving her husband. He followed the two women to the street armed with a pistol and the duel followed.

### Minneapolis Man Drowned.

Minneapolis, Aug. 16.—John S. Muir, cigar merchant, Minneapolis, was drowned at Excelsior, Lake Minnetonka, his wife, whom he had married only three months ago, standing on some rocks in the water ten feet away, powerless to help him.

### Merchant Attempts Suicide.

Columbus, O., Aug. 16.—L. Ginsburg, a clothing merchant of Des Moines, Ia., attempted suicide by cutting his throat with a pen knife on the Pennsylvania flyer, near St. Paris, O. Upon the arrival of the train here Ginsburg was removed to Protestant hospital.

### SHOOTS AND KILLS HIS WIFE

#### Michigan Man Then Ends His Own Life With Acid.

Lansing, Mich., Aug. 16.—William Graulich of this city shot and killed his wife Clara A., and then took carbolic acid, which caused his death. Both were nineteen years of age. The wife would have become a mother in a few months.

Mrs. Graulich was at the home of her sister when Graulich called. She went to the door. They had conversed a few minutes when she was heard to cry out, "Oh, let me go, let me go!" A moment later she lay dead on the floor with a bullet hole in the temple. Graulich at once drank the acid from a bottle, then ran down the stairs and staggered to a street corner, where he fell into the arms of a policeman.

The couple were married last October after a courtship that was started, it is said, while Graulich was an inmate of the state industrial school for boys here. After his release he induced the girl to go with him to Detroit, where they remained for a while. The marriage followed and finally the woman returned to her home here, the husband going West. When he returned a few days ago he was arrested for nonsupport on the complaint of his wife, who also started suit for divorce.

### TWENTY PERSONS HURT IN A RIOT

#### Sharpshooters Use Bayonets on Chicago Crowd.

Chicago, Aug. 16.—Twenty persons were injured here when a company of the Polish Sharpshooters charged a crowd of men, women and children with their bayonets. The trouble started when the captain of the company hit a boy with his sword because the youngster did not get out of the way quickly enough to suit the officer.

This enraged the crowd who had gathered to see the soldiers and an explanation was demanded by the angry people. Finally the mother of the boy attacked the captain with a stick. The captain then ordered his company, which consisted of about twenty men, to charge the crowd with their bayonets. The crowd fought back and outnumbered the soldiers. The riot became general and the captain of the company was one of the first to retreat. A riot call was sent in for the police and they arrived in time to arrest five of the soldiers, all of whom were more or less bruised.

### FAR BEHIND GERMAN CITIES

#### Those of the United States Are Unsanitary and Immoral.

New York, Aug. 16.—American cities are pronounced twenty-five years behind progressive Germany in a bulletin issued by the committee on congestion of population in New York. The worst evils of unsanitary, immoral and crowded housing are to be found, according to the bulletin, in New York, with Chicago a close and gaining second, and Philadelphia, St. Louis and Cleveland following in the order named.

The pressure of population on the land, it was found, could best be studied in specific instances, block by block, not ward by ward, or by tables of average density for the whole city, since such includes streets and open spaces in the acreage on which the averages are founded. Thus, though the average density of population in Chicago is only 21.09 persons to the acre, the Nineteenth ward has a density of 93.76 to the acre, the Sixteenth 101.11, the Seventeenth 107.33 and single blocks by the score run as high as 150 with two that reach 200. The most crowded block in New York had a density in 1901 of slightly under 400.

### May Hamper Relief Ship.

St. Johns, N. F., Aug. 16.—The continued presence of icebergs and flocks along the northern section of the Labrador coast as reported here by vessels arriving from Labrador, may seriously hamper the Peary relief ship Jeane. There are no fears for her safety.

### Telegraphers to Meet.

Pittsburg, Aug. 16.—The Old Time Telegraphers' association, together with the military telegraphers and the correspondents' association, will hold their annual convention in this city on Aug. 17, 18 and 19. Andrew Carnegie and Thomas Edison are members.

## WARNED TO KEEP OUT OF POLITICS

### Census Enumerators Must Attend to Business.

### PRESIDENT TAFT GIVES NOTICE

#### Sends Letter to Secretary Nagel of the Department of Commerce and Labor, Informing Him That Census Supervisors and Enumerators Who Become Active in Politics Will Be Dismissed.

Beverly, Mass., Aug. 16.—In a letter addressed to Secretary Nagel of the department of commerce and labor, President Taft served notice that any man engaged in the taking of the thirteenth census of the United States who engages in politics in any way will immediately be dismissed from the service. Outside of casting their votes, the president believes that census supervisors and enumerators should keep clear of anything that savors of politics, national, state or local.

The president orders that the secretary of commerce and labor and the director of the census embody in the regulations governing the taking of the census the rule so forcibly laid down in his letter.

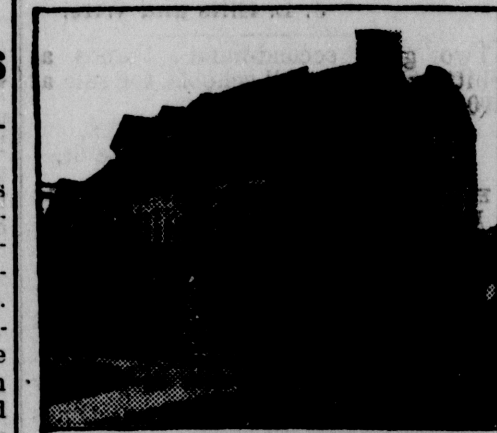

Mr. Taft says that in appointing census supervisors it has been found necessary to elect men recommended by senators and congressmen in their districts. He says he realizes that this method of selection might easily be perverted to political purposes and it is to take the census out of politics, so far as the actual work is concerned that he has explicitly expressed his desires as to the regulations.

President Taft has told the representatives and senators who have urged various men for census places that he would insist that no active partisan should be named and that no attempt should be made to build up political machine in any state or district through the distribution of the census patronage.

### DISCUSS CUBAN SITUATION

#### President Taft and Senor Velez Hold a Conference.

Beverly, Mass., Aug. 16.—President Taft talked over the Cuban situation for an hour with Carlos Garcia Velez, the Cuban minister to Washington. Senor Velez sought the appointment with the president nearly a week ago. For an hour the diplomat and the president sat in earnest conversation on the veranda of the Taft cottage at Beverly cove. Mr. Velez declared

TAFT HOUSE IN BEVERLY.

after the interview that he had found President Taft deeply interested in Cuba and thoroughly acquainted with the ideals and ambitions of the people. He said that Cuba was fortunate in having such a man as Mr. Taft as president of the United States.

Mr. Taft expressed to the Cuban minister the hope that the island's second attempt at self-government would prove successful. He recognized the difficulties and pitfalls that beset the path of the government, but he sincerely hoped that nothing would interrupt the progress of the people. Senor Velez said he realized that forces were at work in the hope of disintegrating the republic. Some of the American newspapers, he declared, had said unkind things about the Cuban people which were disheartening and discouraging, but he shook his head and said: "No, no, no," when asked if he thought it ever would be necessary for the United States again to intervene and set the republic's house in order.

### Hayes Retains His Title.

Sioux City, Ia., Aug. 16.—Playing a steady, consistent game, Walter T. Hayes of Chicago retained his title as singles tennis champion in the tri-state tournament here, defeating Ray L. Branson of Mitchell, S. D., in three straight sets. This is the fourth consecutive victory in the singles here for the Chicago man.

LADIES HOME JOURNAL PATTERNS

## Three Extra Specials

### \$1.25 Yard Wide Taffeta 98c

If you expect to use black taffeta silk in your fall sewing buy of this splendid quality while on sale this week. It is an unusually good \$1.25 kind and during this week only sells at 98c.

A little early but we pay you big for coming early. Only three weeks until school time. These are a good quality of cambric handkerchief and will be on sale while they last, at 2 1/2c each.

### "MICHAEL'S"

### MULTITUDE OF SUBJECTS

#### Will Be Discussed at Transmississippi Commercial Congress.

Denver, Aug. 16.—Every subject that in any way can be connected with the commercial, industrial and agricultural growth of the West, from the Panama canal to scientific dry farming, will be discussed in Denver this week at the twelfth annual convention of the Transmississippi Commercial congress, which begins today.

Much interest is being manifested over the presence of Secretary Ballinger and Chief Forester Pinchot on account of their disagreement at Spokane last week. These two and 1,800 delegates from the national irrigation congress are expected.

Among the multitude of subjects to be discussed are:

Railroad and transportation, commercial problems, closer relations with Southern republics, national defense, with special reference to the Pacific coast and Hawaii, conservation of resources, irrigation and reclamation, parcels post, postal savings banks, mining, immigration, good roads, beet and cane sugar industry.

### Three Men Fatally Hurt.

Ortonville, Minn., Aug. 16.—A collision occurred here between a Chicago Great Western freight train and a motor car, in which three men, occupants of the car, were fatally injured and three others were badly bruised.

### Seven Deaths From Heat.

Omaha, Aug. 16.—Seven deaths occurred in this city during the day as a result of the high temperature. The maximum temperature was 96 degrees.

### MONTANA MAN IS BEATEN TO DEATH

#### Brutally Murdered at Granite Falls, Minn.

Granite Falls, Minn., Aug. 16.—Attacked by night in a lone box car on the sidetracks of the St. Paul road here by a brutal murderer with a heavy stove door he had wrenched from an article of freight and a huge rock, James Granville, an engineer in the Great Northern shops at Havre, Mont., died in a hospital in Minneapolis, while John F. Ruth of Milwaukee, Wis., is held in the county jail here on the charge of committing the crime for robbery.

Granville was taken in a dying condition from the box car here Friday morning. His face was a mass of blood, bits of his skull showing in his splintered head, jaws and nose. The bludgeons with which the deed was done were near the scene of the crime.

County Attorney H. P. Bengtson and Sheriff G. O. Homme immediately took charge of the case and laid a drag net over the community, arresting a number of suspects.

Shortly after noon Ruth was discovered in a pumping station of the St. Paul road, on the other side of town, trying to wash blood, it is said, from his clothes and hands.

Marshal Connor saw the murdered man and Ruth together, he says, the day before the crime was committed.

### ONE SOLDIER IS CAPTURED

#### Mimic Warfare Not Yet Very Exciting.

Boston, Aug. 16.—A bridge destroying expedition to hamper the movements of the army of the "red" and the capture of a private of the invading army were the most warlike features in the work of the army of the "blue" in camp near Bridge-water, defending Boston from an attack from the south by the red army in the mimic war game. The original plans for a strenuous day, which had been laid by Governor Eben S. Draper and Brigadier General William A. Fow were of no avail, because of the postponement of hostilities.

Every regimental headquarters, however, has received marching orders and the indications point to a general advance soon.

The first real move of the army of the blue was taken early in the day when two battalions of the Eighth infantry under Major Graves was sent to destroy the important bridges along the Assonet, Taunton and Minnetuxet rivers. The detachment returned some hours later, tired and dusty, but reporting their well done. The red army, when it advances, will be thrown on its own resources in crossing the several streams that lie between it and Boston. Accompanied by several of the referees, the detachment, upon coming to a bridge, would place under it a package supposed to contain enough dynamite to destroy the structure. Then a giant fire cracker was exploded and a placard was placed on the bridge announcing that it had been destroyed.

MONDAY, AUGUST 16, 1909.

The time to advertise for business is when it is slack, ever think of that, Mr. Business Man? Your wife advertises for a domestic when she is without one. The same rule applies in business.

At Staples the street sprinkling is ordered by the city council along certain streets and if not paid for by the owners or occupants, the bill is settled by the city and charged up against the abutting property.

Carl Taylor is said to have struck a coal mine in the Koochiching country. Carl lives in Aitkin county and has for some years been endeavoring to break into congress. Whether the coal strike story is for the purpose of financing the next congressional campaign is not stated in connection with the news item.

Wadena has had an offer of \$5,000 for a monopoly of the saloon business in that city. The eight drink parlors now there pay \$4,000 per annum into the city treasury and by accepting this proposition, the financial problem will be supplanted by the addition of \$1,000 and the police will have only one saloon to keep under watch. It looks like a good proposition for a town of that size.

Now comes the news that the state agricultural school is to continue to be presided over by J. W. Olson as dean. It will be remembered that when Mr. Olson was appointed it raised a storm of criticism and the report was given out that it was only temporary and that he would retire at the end of six months. The gentleman is an educator of prominence, but not along the lines necessary in that position, as it was conceded that he has not the slightest technical education as an agriculturalist.

Bemidji has discovered that a street carnival is no benefit to any city, that it takes money without returns to the merchant and business men generally, and that there is not a city that has had a carnival but for many weeks after has felt its effects. In the main the Bemidji Sentinel is correct in its deductions. However, street carnivals seem to be in the category of necessary evils and that being the case, Brainerd has solved the problem by playing all carnivals for the benefit of the park improvement association, and the percentage goes to benefit the city in general, instead of into some lodge or private institution, which is proper. There is no question but that street carnivals are nuisances but the public will tolerate them when the whole people reap a profit for some public improvement, where there would be many kicks registered if it were otherwise.

**LOCAL NEWS NOTES**

Weeks repairs guns. 307 6th S. Attorney A. T. Larson went to Pequot this afternoon on business.

Will trade in cook and heating stoves and furniture. E. J. Rohne 45 Awnings! Awnings!! at D. M. Clark & Co. 234-tf

Herman Casey, formerly well known here, now of Roseman, Mont., spent Sunday in Brainerd and left for the east today.

H. M. Lewis returned yesterday from a week's visit with friends at a summer resort on the Brule river in Northern Wisconsin.

Masters Donald and Percy Fader, of St. Paul, who have been visiting at the home of G. W. Smythe, left for St. Paul this afternoon.

W. A. M. Johnston went to Minneapolis to meet his family, who are on their way home from an extended visit in Kentucky and other points.

Mrs. Geo. McDougall, of St. Paul, and party, who have been spending the summer at Lake Roy Farm, near Nisswa, left for their home today.

W. E. Ericson, Mons Mahlum and Miss Amy Lowey left on the early train this morning for Waseca, to attend the funeral of Prof. Hartley.

Miss Julia Martin, stenographer for the board of trade of the Duluth commercial club, arrived in the city today for a visit at the home of Alderman Cardle.

Joseph Harrison and two daughters of Neutral, arrived today from their former home in Riceville, Iowa, where they have been visiting for a few weeks.

Mrs. R. Buchman and children who have been visiting at the Soloski and Levant homes for the past three weeks, returned to Duluth Sunday afternoon.

Clifford A. Russell, of Miles City, Mont., arrived today from Riceville, Iowa, where he has been visiting his parents, and is visiting his brother, F. E. Russell.

E. A. Lamb, of Webster, N. D., who also has an office at Deerwood, was in Brainerd yesterday afternoon between trains.

Weeks repairs bicycles. 307 6th S. Mrs. Taplin and little son returned home to Staples today after a visit at the home of Mr. and Mrs. A. J. Forsythe in this city.

Rev. Chas. Kollmorgen, pastor of Zion German Lutheran church, left this afternoon for Beatrice, Neb., to visit his son, Prof. K. Kollmorgen, who is teaching in a college there.

Al Mattes left today noon for his home in Prince Albert, Sask., leaving his little daughter, Alice, steadily improving. Mrs. Mattes will remain until her daughter is able to travel.

Miss Eunice O'Conner, who has been employed by the Canadian Northern as a stenographer, leaves today for Superior, where she will take a position with the American Milling company.

Dr. and Mrs. J. A. Thabes, Wm. Wood and R. J. Hartley left this afternoon for Waseca to attend the funeral of Prof. Hartley. Prof. F. W. Hanft, who is at Hubert, will also attend the funeral.

Dr. David Hilton and family, of Lincoln, Neb., were in the city Saturday on their way to Pelican lake to join other members of the Pelican Lake Outing Club in their annual camp.

Alger Anderson left this afternoon for Weyerhaeuser, Wis., where he will visit an uncle for a few days. He will also visit Sault Ste Marie and other points before returning, and will be absent about ten days.

Mrs. M. K. Swartz and son, Earle, returned today from a ten weeks' visit at various Illinois points. Miss Louisa Benjamin accompanied them from Minneapolis and will visit the Misses Swartz and other Brainerd friends.

Mrs. R. W. Hannah, of Luverne, Iowa, arrived Saturday accompanied by her daughter, to visit at the home of her cousin, G. N. Grant, whom she had not seen in 22 years. They are on their way home from a visit to Seattle and the Alaska-Pacific-Yukon exposition.

Mrs. J. P. Anderson and children and her sister, Miss Erichsen, came down today from Hubert, where they have been for a couple of months. Mr. Anderson's fine new residence at the corner of North Fifth street and Holly is now ready for occupancy and the family will move in at once.

Caroline Barron, 414 Fourth Ave. northeast, is one of the winners of season passes in the Gettysburg essay contest held by the Minnesota state fair management. She was among the high school contestants. Clyde A. Hall, of Pine River, won a season pass in the grade contest.

Mr. and Mrs. Bert Smith, of Coldwater, Kan., left for their home yesterday after a visit at the home of his brother, C. E. Smith. Mr. Smith is an old time Brainerdite, having learned his trade as a machinist in the Northern Pacific shops here. He is now a division foreman on the Chicago, Rock Island & Pacific railroad.

Saturday's Duluth Herald, in its mining news, states that the Jones & Laughlin Steel Co., which has been exploring the Cuyuna range as the Inter-State Mining Co., will resume its work on the range next winter. It is at present turning its attention to explorations on the Menominee range.

Marguerite Ellison, the four months old daughter of Mr. and Mrs. August Ellison, died at their home in Bemidji Saturday night and was brought down on last night's train and laid at rest in Evergreen cemetery this afternoon, after funeral services at the home of the little one's grandparents, Mr. and Mrs. Chas. Ellison, 512 Quince street.

Jim Boyle, the well known base ball pitcher, was in the city a few hours today. He brought a man named P. J. Corbett, who is suffering from muscular rheumatism, to the Northern Pacific hospital from Jamestown. Jim pitched for the Jamestown team this year, winning 19 out of 21 games. Jack Boyle, also well known here, played in the Jamestown team also.

**Card of Thanks**  
We wish to thank the many friends and neighbors, and especially the boiler-makers, for their kindness and help during our recent bereavement.  
J. L. Ellis and Wife.

Two good second-hand Pianos at Whittey and Lowell schools for sale at \$100 each, if taken at once.

210, 6th Street South, 53-6t.

**FOR SALE—30 ft. gasoline launch, 12 h. p. 4 cycle engine. Also one 12 h. p. 2 cycle engine cheap. 1013 Kingwood Street, Brainerd, Minn.**

No matter how long you have suffered, Foley's Kidney Remedy will help you. Mrs. S. L. Bowen, Wayne, W. Va., writes: "I was a sufferer from kidney disease, so that at times I could not get out of bed, and when I did I could not stand straight. I took Foley's Kidney Remedy. One dollar bottle and part of the second cured me entirely." It will cure you. H. P. Dunn, Druggist.

**A Thoughtful Gift.**  
Tom went out to buy a pair of gloves for his sweetheart's birthday present and to make a purchase for his father. Of course he got things mixed, as they always do in stories, and the young lady received a pair of heavy woolen men's socks with the following note:  
"Dear Helen—Please accept these in consideration of my love for you. Oh, that I were to be the only one to see them when you wear them! If you find any difficulty in getting them on, blow in them. Yours affectionately, Tom."—Success Magazine.

**Cured Hay Fever and Summer Cold**  
A. S. Nusbaum, Batesville, Ind., writes: "Last year I suffered for 3 months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever and a doctor's prescription did not reach my case and I took several medicines which only seemed to aggravate it. Fortunately I insisted upon having Foley's Honey and Tar. It quickly cured me. My wife has since used Foley's Honey and Tar with the same success."  
—H. P. Dunn, Druggist.

**White Bros.**

**T. L. Blood's Paints**

Are the best. Berry Bros. Varnishes and Floor Finishes are Leaders. Gypsine wall Finish cannot be beat. We have them all. Also a full line of sporting goods and fishing tackle.

**616 Laurel St. Brainerd, Minn.**

**LUCANIA BADLY DAMAGED**

Cunard Liner Submerged to Put Out Stubborn Fire.

Liverpool, Aug. 16.—The Cunard lines' steamer Lucania lies submerged at the Huskisson dock, seriously damaged, having been almost gutted from her funnels forward by fire which broke out on board the liner at 7 o'clock Saturday evening. The flames are supposed to have originated in the saloon kitchen.

The fire brigade of the vessel with two motor engines turned out immediately at the first alarm and found the first saloon burning fiercely from end to end. Despite all their efforts the flames worked forward until they reached the steerage, consuming every particle of the woodwork there and then played havoc with the fore-hold.

At this time the heat was tremendous and the flames, shooting high from the vessel, attracted thousands of vessels to the side of the river where they remained throughout the night.

At 3 o'clock Sunday morning it was decided to flood the vessel by admitting water into her from the dock. Soon she keeled over and her funnels came in contact with the cranes on the dock and were badly damaged. A half dozen firemen who were on the gangway at this time were thrown into the water, but all were rescued. A fleet of tugs then was brought into requisition and pulled the liner up right and held her until she settled firmly on the mud bottom. It was 1 o'clock Sunday morning before the fire was under control and noon before the fire brigade was able to relinquish their task. The second class quarters and the whole after part of the boat, including the engine room, escaped injury.

**Chinese Woman Murdered.**  
New York, Aug. 16.—Chinatown boiled over again on discovery of the murder of the most beautiful of the few Chinese women in New York. Bow Kim, twenty-one years of age, who came here from San Francisco about a year ago with an Americanized Chinaman, Chin Lon. Three Chinamen were arrested.

**Smallwood Beats St. Yves.**  
Cincinnati, Aug. 16.—Over a course made slow by a heavy rain, Percy Smallwood, the short distance runner, defeated St. Yves, the long distance champion, in a twelve-mile race on turf by two and one-half laps at the Cincinnati National league baseball park. Smallwood's time was 1:09:21 1/2.

**Hotel Destroyed by Fire.**  
Santa Barbara, Cal., Aug. 16.—The Hotel Arlington has been destroyed by fire. Several hundred guests from all parts of the country were in the hotel, but all escaped. The alarm was given just as the guests were entering the dining room. The loss is estimated at \$75,000.

**Fatal Fight Over Ice Cream.**  
Flint, Mich., Aug. 16.—During a fight which resulted from an argument over payment for a dish of ice cream, Frank E. Lind, sixty-three years old, was shot and instantly killed by Eber

## MONSTER ROSE HOUSE

North Wales, Pa., to Have Biggest of Greenhouses.

FOR AMERICAN BEAUTIES ONLY

Florist, Impressed by Demand For Expensive Flowers Among Wealthy Persons, Conceived the Idea of Cultivating Popular Rose in Building Covering Nearly Two Acres.

Resembling a railroad train shed more than a greenhouse, a monster structure of glass and iron tubing is being erected at North Wales, Pa., which when completed will cover an expanse of almost two acres and will be the largest greenhouse in the world. It will stand beside another greenhouse of somewhat smaller dimensions, which at present holds the world's record for size among such structures. Both these greenhouses will be devoted solely to growing American Beauty roses, one of the costliest of flowers.

Impressed by the demand among wealthy society people for roses of the most expensive nature, several New York florists a few years ago began the cultivation of American Beauty roses on a fifty-four acre tract on the western outskirts of North Wales. These roses at the height of the social season, from Christmas until after Easter, are sold at \$6 to \$18 a dozen. A single plant under the hothouse forcing process produces about a half dozen first class blooms in a season.

One florist concluded that, instead of following the old time plan of having a number of greenhouses of ordinary size, a great saving in the matter of the cost of material and of the subsequent heating of the building could be effected by erecting one large structure.

Seven Hundred Feet Long.

But, owing to the frail character of the construction, builders shook their heads when it was proposed to put up a greenhouse 150 feet broad and almost four times that long. Finally a daring contractor was induced to undertake the work. So successful was the outcome that the projectors of the enterprise are now about to outdo themselves by building a still larger greenhouse. The one that has been in use for two years is 32 feet high at the center, 150 feet wide, 425 feet long on one side and 575 feet on the other, the irregular shape having been adopted

to afford a wide southern exposure. The new structure will be of the same height and width as the older one, but will be 700 feet long.

In the greenhouses there will be space for about 100,000 rosebushes. The present building contains 45,000, arranged on beds, or "benches," as florists call them, which if placed in a continuous row would be two and three-quarter miles long. The life of the forced hothouse rose plant is but a year. Plants are grown from cuttings planted early in the year. By Christmas time they begin to produce the magnificent long stemmed and durable blooms that are the delight of the society belle and the devastation of the society youth's pocketbook. The plants grow to great height and are supported by being tied to wires stretched through the greenhouse.

Thousands of Panes of Glass Needed. The task of building the greenhouse is an intricate process. Immense scaffolding, somewhat resembling the seats in a circus tent, is reared, and perched upon this the workmen place the iron framework and the panes of glass in position. For the older greenhouse almost 50,000 panes of glass were needed, and five freight cars were required to carry the glass to North Wales.

The foundation and sides of the greenhouses are of concrete. Pipes for the water supply and the steam heating system form an important part of the plant, for the temperature must be maintained at about 60 degrees all winter, while water is needed for the frequent spraying of the plants. For the latter purpose the older greenhouse has 275 spigots.—Philadelphia Record.

## BECAUSE OF POOR HEALTH

Chicago Woman Kills Three Children and Herself.

Chicago, Aug. 16.—Mrs. Marie Handzel committed suicide and at the same time asphyxiated her three boy babies. She had carefully bathed and dressed her three children—one four years old and the other two, two years old—and carried them into the bathroom, where she had closed the door and turned on the gas. The smell of gas awakened her husband, Joseph Handzel. When he broke open the door of the bathroom he found the four dead bodies. The twins were wrapped in a quilt and placed in the tub, while the older boy was clasped tightly in his mother's arms.

Mrs. Handzel had been ill for some time and apparently was able to get no relief and that is thought to be her only reason for her act. She leaves four other children ranging in age from six to sixteen.

## WARSHIPS ON WAY TO CRETE

Trouble in That Country Not Yet Ended.

## SITUATION AGAIN IS ACUTE

Not Unlikely That the Powers Will Reoccupy the Island in Order to Force Compliance With Their Wishes—Fresh Negotiations May Ensnare With a View to Settling Cretan Question.

Canea, Crete, Aug. 16.—A band of armed peasants entered Canea and occupied the fortress, determined to prevent the carrying out of the powers' command for the removal of the Greek flags.

London, Aug. 16.—A peaceful solution of the Cretan situation appeared practically to have been secured last week through the intervention of the four protecting powers, and the scrupulously correct attitude adopted by the Greek government in its diplomatic intercourse with Turkey, and despite the fact that the Turkish government, under the pressure of national agitation, handled the diplomatic difficulty in an unskillful manner in demanding fresh guarantees from Greece.

The Young Turkey party plainly mistrusts the present Turkish ministry and fears that Turkey will lose suzerainty of Crete, as she has lost that of Bulgaria. This feeling has led to a strong movement among the Albanians against the Turkish government and to a serious boycott against Greek trade.

At the same time the population of Crete has shown such strong Greek sympathies as to induce Crete to defy the order of the protecting powers—Great Britain, France, Italy and Russia—to haul down the Greek flag, which was raised when the troops of the powers recently evacuated the island. As a result of this latter difficulty, the situation again has become acute. The powers have ordered warships to Crete and probably will reoccupy the island in order to force compliance with their wishes. In this event it is not unlikely that fresh negotiations will ensue with a view to placing the Cretan question on a more settled basis and prevent a recurrence of the disturbing events.

Perfect confidence still is felt that the peace between Turkey and Greece will not be disturbed.

## FOUR MEN BADLY CRUSHED

Two of Them Fatally Hurt in Collapse of Building.

Winnipeg, Man., Aug. 16.—The handsome reinforced concrete apartment block known as Bredalbane, being erected on Margrave street at the cost of \$250,000, fell in with a crash. Heavy rains had moistened the concrete so that the steel girders gave way, sending down the weighty floors to the basement. Four men were inside at the time, inspecting the work and were crushed, two so severely they were taken to the hospital in a dying condition. They are J. Duncan and William Dodds, expert concrete mixers. The wreckage is such that it will cost considerable to rebuild, as steel and tiles with wooden supports are deposited in the basement in an indescribable mass.

## MANY PERSONS INJURED

Orangemen Attack Excursion Party and Fierce Fight Follows.

Dublin, Aug. 16.—An excursion party made up of members of the Ancient Order of Hibernians was attacked at Portadown, Armagh, by a mob of stone-throwing Orangemen. Six hundred policemen were employed in suppressing the rioting, during which many persons were injured.

Fad in Portraits.

Plaster portraits are the fashionable form of "counterfeit presentment" in London. They are done in the form of miniature busts or bas-reliefs.

## COMING ERA'S GLORY

No More Divorces Then, Says Mrs. Annie Besant.

DUTY TO TAKE PLACE OF RIGHT

Family Ties Will Be Stronger and Religion More Rational and Tolerant, Declares Theosophist Chief. "Woman Not to Be a Suffragette."

Surrounded by followers and students in her apartments in a New York hotel, Mrs. Annie Besant, chief priestess of the theosophists, who recently arrived in the metropolis from India, discussed the new civilization she foresees close at hand. The day was gloomy and rainy without.

"Through this misty rain," she said, "we cannot see as far or as clearly as we can when the air is not reeking with moisture. I refer, of course, to seeing with the physical eye. The third eye, about which I have spoken since I have been here (New York) this time, penetrates all mists. Every one of the few really great leaders of mankind since time began has possessed this third eye. It was by means of this they were able to see through the ages and back across the cycles of the past. "In the coming era that lost sense will be restored to everybody. Then the spiritual age will be ushered in. Until then we may expect to make no progress. We have progressed as far materially as it is possible to go. The change is bound to come or the race will die of its own inefficiency.

Airships in the Past.

"The people of India have more nearly preserved the full use of the third eye than any other people. I have been living among them for years, and nothing in their civilization has startled me more than this. Their authentic history comes down in an unbroken line reaching back to ages that make our civilization seem a mere upstart. They know that before our ancestors had even come upon the world's stage at all the air was being traveled by their forebears.

"But even without their aid I had learned through the third eye that the airship, as we call it, was in common use in the past and in many essentials a better age. The airship then in use was lifted from the earth by a propulsive force, as seen through occultism, and sailed the air as serenely as a stanch craft sails a summer sea."

Mrs. Besant was asked for fuller details of the new civilization than she has yet outlined.

"Primarily," she said, "spirit will be the dominating characteristic, just as intellect is the dominating characteristic of this civilization. In all ages we find in the superior man something beyond the strictly intellectual. This was illustrated in the Christ.

Divorce Will Disappear.

"It is that quality that will mark the new civilization. Men will be more nearly equal than now. I do not mean this in the socialistic sense. Nature is not socialistic. The majority never rules. It is the minority always that rules. It is the aristocrat that leads, not the plebeian. So necessarily there will be distinctions between men in the new civilization. As I see it there will be no divorce in the coming dispensation. This civilization we are now living in brought in divorce. Divorce will disappear just as the innumerable other shortcomings of this era will vanish. The sequences will be more clearly defined. As we have developed up to this era we have had periods or stages of passion, emotion and intellect. The next in the line of sequence will be spiritual. In the United States, where there is a wonderful mixture of racial bloods, the

## The Bumblebee.

I see a vision soon to come  
When air obeys our will  
And, soaring high and far and swift,  
The sky with wings will fill.  
Across the vast commercial fields  
The bumblebees shall roam  
And from the clover patches sweet  
Bring heavy pollen home.

But they shall have another side  
And more than peaceful arts  
When nations fight among themselves  
For honor, land or marts.  
For when the parties rush to arms  
Each quarrel shall find  
A swarm of angry bumblebees  
That leave their stings behind.  
—Melancthon Wilson in New York Sun.
